To Whom It May Concern:

It is my pleasure to recommend the Gravatt Consulting Group to my contemporaries within the land planning and development community.

Throughout the twenty plus years of my relationship with Jack Gravatt and the Gravatt Consulting Group they have had a huge impact on our land development efforts and we continue to be very impressed by the quality, professionalism and timeliness of their work.

I have found the land planning team at Gravatt Consulting Group to be highly knowledgeable, very efficient and easy to work with. Their performance is exceptional...their product is of the highest quality, on schedule, and within budget. I highly recommend the Gravatt Consulting Group if you need a seasoned engineering and planning resource to help you get the job done.

Sincerely,

Robert Schubiger
