Gravatt Consulting Group
30 Broad St.
Freehold, NJ 07728-1905

Our company, Mountain Laurel Homes, Inc. is a custom home construction company based in southern Ocean County, New Jersey. Since our establishment in 1996, we have been a client of the Gravatt Consulting Group. During the course of our relationship with Gravatt, we have been completely satisfied with the service that has been available to our company by them.

For the past ten years, Gravatt has handled all of our projects in a professional and efficient manner. Their staff is readily available at any time you need to speak to them and they have multiple people on hand to handle your requests. Everyone in the Gravatt office is pleasant to speak with; you can always feel comfortable with any questions or requests that you call in for. Their scheduling is very reliable; when they put a job on their schedule it always gets done on that date. Their reliability is second to none. Even in a "pinch", which happens from time to time in business, they always have come through for us if we need something done on time constraints.

Overall, we are completely satisfied with Gravatt Consulting Group. We have had a great relationship with Gravatt for the past ten years and we are looking forward to continuing that relationship as we move on into the future.
