## ABOUT THE FIRM

For 35 years, the foundation of quality performance and professionalism has served as the signature of Gravatt Consulting Group, Inc.

“The surveyor builds the foundation for all design that comes after”

Jack Gravatt, Founder of Gravatt Consulting Group, Inc.

The Company was founded in 1970 by Jack Gravatt when he and a partner opened a small office in Forked River. Jack and his partner were intent on providing a superior and professional service to the development and construction industry. This desire for professionalism would eventually lead Jack to be the driving force and co-founder of the New Jersey Society of Professional Land Surveyors. Through the years the firm has grown in response to the need to provide multi-disciplinary, creative, professional design solutions for clients throughout New Jersey and its coastal region. Today, with offices in Forked River, Ocean County, New Jersey and an affiliated office in Phoenix, Arizona, the Firm’s staff of 33 design and ancillary professionals continues to perform with integrity, honesty and professionalism

Our innovative, “Team Approach,” to project management unites a host of design professionals, including engineers, planners, environmental scientist and land surveyors to offer unique design solutions to an often equally diverse group of clients, public and private, throughout New Jersey and it’s coastal region. Whether we’re providing creative solutions to often complex issues associated within New Jersey’s private land development community or providing consulting services to a host of governmental entities, Gravatt Consulting Group offers unparalleled attention to detail and unequaled personal service. The

combination of close personal service and practical engineering solutions is the cornerstone to the many longtime client relationships, of which Gravatt Consulting Group is most proud.

Associates within the firm possess extensive project experience and expertise in specific areas of site engineering, municipal consulting and planning, environmental sciences, traffic engineering and land surveying. From this experience, the company has compiled an impressive record and reputation for quality and innovation in their planning and design. Gravatt Consulting Group prides itself in its ability to meet client goals and schedules throughout the planning, approval and construction process, which often determines the financial success of a project.

Throughout its 35 year history, Gravatt Consulting Group has maintained a reputation for quality work and continually builds upon that reputation while providing a wide range of consulting services to private individuals, architects, land developers, contractors, municipalities, state agencies and institutions throughout New Jersey.
